

How we're performing

Regulatory rating

Connexus is rated G2/V2/C3 by the Regulator of Social Housing.

A G2 rating for governance means Connexus meets the Regulator's governance requirements but needs to improve some aspects to support continued compliance. A V2 rating for viability means Connexus meets the viability requirements of the regulator. It has the financial capacity to deal with a reasonable range of adverse scenarios but needs to manage material risks to ensure continued compliance.

A C3 rating means there are serious failings delivering the outcomes of the consumer standards and significant improvement is needed. Connexus is committed to working with the Regulator to evidence a new customer centred approach to address this, and to providing the best possible service for its customers and stakeholders.

Tenant Satisfaction Measures

On 1 April 2024 the Regulator of Social Housing updated their consumer standards. Housing associations like Connexus must meet these, along with other economic viability standards, to be compliant with the regulatory code that the Regulator sets.

A landlord's progress and compliance with the standards are monitored by the Regulator through an ongoing inspection regime as well as annual self-assessments.

They also look at how each landlord is performing using a range of Key Performance Indicators (KPIs) and Tenant Satisfaction Measures (TSMs).

The TSMs standard has twenty-two measures, comprised of ten management information measures and twelve satisfaction measures which cover five key themes:

1. Keeping properties in good repair
2. Maintaining building safety
3. Respectful and helpful engagement
4. Responsible neighbourhood management
5. Effective handling of complaints, alongside an additional measure for overall satisfaction with landlord services.

Connexus tenants are asked the TSM questions in telephone surveys carried out by an independent company called Acuity Research. You can learn more on [the Customer Feedback and Performance page](#).

You can see how Connexus performed in the table below.
